What we discussed

Meera asked about her work and whether to change jobs. We looked at the 10th house, its lord and the periods running now.

The Rahu–Moon period runs until December 2027: a time to build on her present role and add to her skills. Rahu–Mars, from December 2027, is the better window to plan a change. We will look at the chart again before then.

- Moon exalted in Taurus, in the 10th house
- Mercury in the lagna, in Leo
- Sun, Jupiter and Venus together in Cancer, in the 12th house
- Saturn in Sagittarius, in the 5th house
